I did spend quite some time on the natural and creative photos, even though it may not appear as such in the photos themselves. I believe I submitted my photos of Alex and me, but since they were transferred as jpg, I also edited the photo I took of Jesse during the first camera exercise because it was in RAW. I did two versions of that as well.

I had a lot of fun making this video. It was harder than I expected because of the fact that it could only be a minute long. I think it really let me express some of my talent though and I am really pleased with it. Maybe I'll add some real audio to it later on.

I didn't end up being able to do the sound recordings because of both financial and time constraints. Even if I was able to rent the recorder, I would not have had enough time to get all the sounds I needed. I put 5 points on number 3 because I did read the assignment.
